Aspiring Java Full Stack Developer

Chennai-600122

## PROFILE SUMMERY

As a Electronic Communication Engineering with a passion for technology and programming, I am excited to explore opportunities in FULL-STACK development and have doing several courses, including HTML, CSS, JAVASCRIPT, REACT.JS, seeking to apply my skills and knowledge to the dynamic and fast-paced world of software development.

---

## SKILLS

### Front-End Development:

- **HTML/CSS** - For Structuring and Styling.
- **JavaScript** - For Making web pages interactive.
- **Bootstrap** - Framework for the creation of websites and web application.
- **React.js** – Create User Interface (UI), Which enhance the speed of programs.
- **Angular**- Basics: Components, Data Binding, CLI

### Back-End Development:

- **Java** - The primary programming language for Back-End logic.
- **Databases: MYSQL** - MySQL's connectivity speed, and security make it highly suited for accessing databases on the internet.

## EDUCATION

- |                                          |                                             |
|------------------------------------------|---------------------------------------------|
| • <b>Loyola Institute of Technology</b>  | Bachelors of Engineering (ECE)              |
| • <b>Arignar Anna Govt.Hr.Sec.School</b> | Higher Secondary Certificate (HSC)          |
| • <b>Mangadu Govt.Hr.Sec.School</b>      | Secondary School Leaving Certificate (SSLC) |

## PROJECTS

### E COMMERCE WEBSITE - Technologies Used: HTML, CSS, JavaScript, React.js:

- **Description:** Developed a comprehensive e-commerce platform for buying and selling real estate, featuring advanced search filters, property detail pages, and an interactive map.
- Interactive property search with custom filters
- Dynamic property listings with detailed information

### QUIZ APP - Technologies Used: HTML, CSS, JavaScript:

- **Description:** Created an interactive quiz application that allows users to take quizzes on Java Basic topics, track their scores, and view results.
- User-friendly interface for taking quizzes with multiple-choice questions
- Real-time score tracking and result display

### Food Sortx - Technologies Used: HTML, CSS:

- **Description:** Designed and implemented a static website for sorting and displaying various food items, showcasing effective use of HTML and CSS for layout and design.

## CERTIFICATION

- I have successfully completed the Java Full Stack Development course at Innovate Technologies. The program equipped me with expertise in front-end and back-end development, along with database management. I am now confident in building robust, dynamic web applications.
